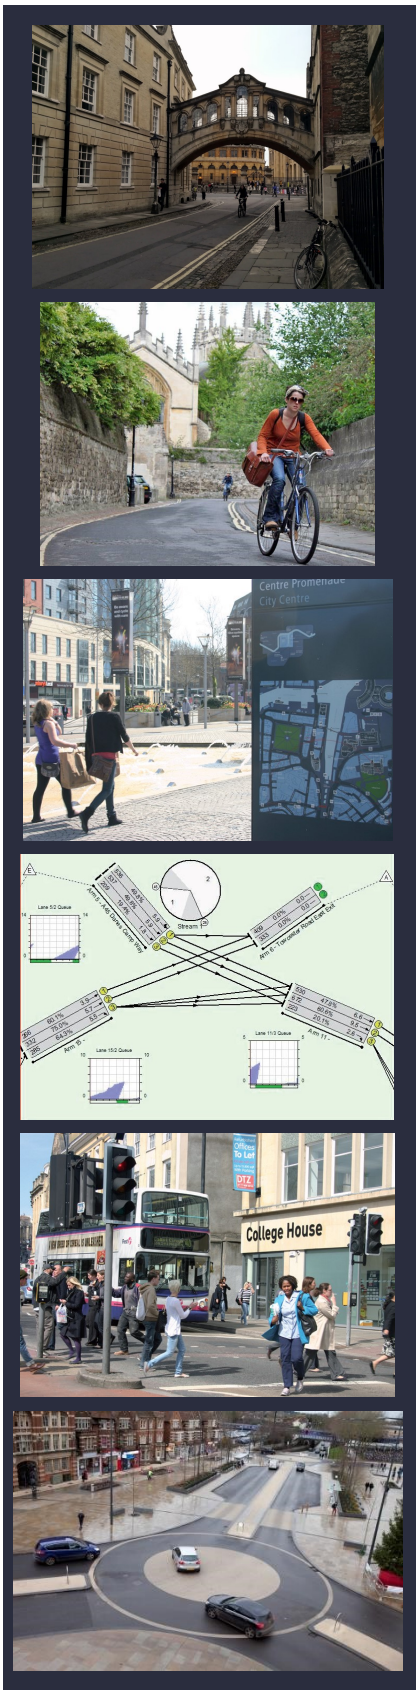
Transport Planning Associates

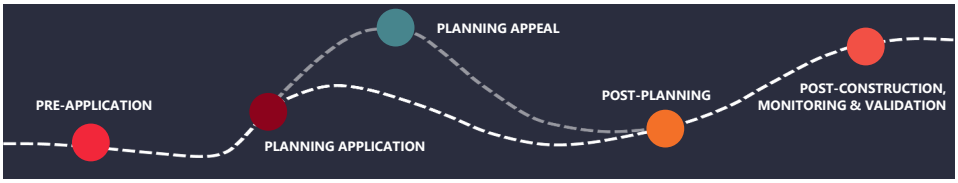
SENIOR - PRINCIPAL TRANSPORT PLANNER



We are looking for a Senior and / or a Principal Transport Planner to join our Oxford office, engaged in all aspects of development transport planning and traffic engineering. Applicants should have experience in the preparation of Transport Assessments and Transport Statements in support of new developments, and to provide advice on the transport aspects of development masterplanning, urban regeneration projects and the production of Travel Plans.

The successful candidate should be capable of analysing complex transport/ highway issues, and be able to deliver innovative and cost effective transport planning solutions that exceed our clients expectations. You will also be expected to sensitively manage client relationships and relationships with council officers and other professionals. You will be able to manage projects, budgets and junior staff to ensure delivery of demanding projects. Your role will also require you to manage a variety of projects across all land uses and to provide support to Directors.

We offer competitive salaries and pension scheme, 25 days annual leave, flexible working and life assurance schemes.

You will have either a relevant academic qualification or considerable experience and have either obtained or working towards an appropriate professional qualification. You should be able to demonstrate a proven track record within the industry, be computer literate and have a good working knowledge of development transport planning.


If you are ready to take this next step in your career opportunity is for you, please forward a copy of your CV with a covering letter to: oxford@tpa.uk.com
